## 0.1 Context

I've been writing a lot about different things on this blog/website. I thought it would be appropriate for me to attempt to write a book, something that would be a little bit more constructive than simply writing what was going on in my head. Thus the goal of writing a book was born.

I'm always curious about the processes involved in accomplishing a certain goal. In this case, how should one write a book?

## 0.2 Learned in this study

## 0.3 Things to explore

## 1 Overview

- Determine the topic
- Prepare a plan
- Write the content
- Review the content
- Reformulate/Rephrase/Restructure
- Format
- Prepare for publication
- Based on reading speed of individuals (around  $230 \pm 30$  wpm), we can define how long we want our book to take to read
  - 1h = 13800 words
  - 4h = 55200 words
  - 8h = 110400 words
